PROFILE

I am a keen, hardworking, reliable, and excellent timekeeper. I am a flexible individual who can learn new skills easily and execute them swiftly. I am well organized with a clear and positive approach to problem-solving. I am also very creative with good interpersonal understanding and communication skills and also up for any new challenges coming my way. I like to set up goals for myself, and I am also a quick learner

OBJECTIVE

To grow with a company where I can efficiently contribute my skills as a professional.

EXPERIENCE HIGHLIGHTS

Front End Developer

Wizick Legal Tech (India)
Remote   Jun. 2022 – Sept. 2022

I developed the frontend design for a Legal Document Automation Software solution. I worked collaboratively with the UI/UX team, the backend development team, and the project management team to define requirements, conduct research, and deliver a quality product that met the predefined goals. My responsibility also included coordinating the other team members on the right path to developing the software, considering the accessibility and flow of the project.
Notable Contributions: Led and coordinated the team to create viable and profitable software solutions, receiving commendation from the CEO for this work.
